

8th UK Swallowing Research Group Conference

Thursday 6th & Friday 7th February 2020

UCL Great Ormond Street Institute of Child Health, London

The UKSRG comprises clinicians and researchers from a wide range of professional disciplines including biomedical engineering, speech and language therapy, occupational therapy, radiography, radiology, ENT, gastroenterology, stroke medicine, dietetics, oral health, general medicine and neurology. We recognize the interdisciplinarity of the clinical specialties and basic sciences that support developments in the field. This conference will be of interest to all health care professionals with an interest in swallowing and feeding management across the birth to death continuum. State of the art information will be delivered by leaders and current clinical researchers in the field of dysphagia.

Conference will cover 4 key themes with presentations from leading experts in their field including respiratory and oral care management, surgical interventions, the patient experience, and neurological interventions

Keynote speaker:

Dr Katlyn McGrattan, Clinical Researcher at Boston Children's Hospital, Boston, Massachusetts

Other speakers include:

- **Dr Martin Brodsky**, Associate Professor, Department of Physical Medicine & Rehabilitation Johns Hopkins University
- **Dr Anna-Liisa Sutt**, SLT, Barts Health NHS Trust; Research fellow, Critical Care Research Group, The Prince Charles Hospital, Brisbane; Industry fellow, Northside Medical School, University of Queensland, Brisbane, Australia
